

## Meet the Presenter...

### JD Sherry

#### Chief Revenue Officer – Remediant

A seasoned technology executive, JD is responsible for providing vision and awareness regarding the latest trends in cyber security, risk and compliance. Well-versed in enterprise security and data center architecture, JD has successfully implemented large-scale public, private and hybrid clouds emphasizing security architecture best practices to meet strict compliance standards. For the past 15 years, he has established himself as a trusted senior advisor for the protection of Payment Card Industry (PCI), Health Information Privacy Act (HIPAA) and Personally Identifiable Information (PII) data. Mr. Sherry interfaces regularly with TV/media/press to provide expert insight on the state of cyber security and how individuals and organizations can adequately protect themselves from loss.

JD has spent nearly 20 years in senior leadership roles. Most recently as GM/Vice President of Cloud Security and Strategy at Optic Security responsible for Optic's Cloud Practice. Prior to Optic he was CEO of Cavin Systems in Santa Clara, California. Additionally, he previously served as Global Vice President for Trend Micro where he focused on security program efforts, managing vendor relationships also collaborating on business development activities pertaining to the advancement of cyber security best practices. He spent 7 years with publicly traded NIC, NASDAQ: EGOV as Vice President of Technology where he was chartered to lead technology initiatives and formulate EGOV.com's centralized security and technology vision. While at NIC/EGOV.com, he managed technology platforms that processed over \$18B in payments on behalf of citizens, businesses and governments. Mr. Sherry also has held various leadership positions within Honeywell FM&T, which manufactures and assembles 85% of the non-nuclear components in nuclear weapons. JD has held Top Secret clearance and has an M.B.A./IT degree from Jones University and a B.S. degree from the University of Nebraska.
